The seminar program is intended for **epi** Students preparing for the EQE paper D and, in particular, for those having completed the EQE pre-exam.

The workshop is structured into 6 sessions, in which the paper is systematically approached.

A small number of participants allows for intensive discussion, group work and a high degree of individualisation.

After a general introduction on how to read and understand paper D, especially **DI** questions (session 1), answering DI questions will be practised and discussed (session 2).

The following session (3) will deal with **paper DII** and give a general overview on how to read and understand the paper, how to find and to structure the relevant information. Sessions 4 and 5 will be entirely dedicated to answering and discussing paper DII.
